Hello! I'm CHIMATA RAGHURAM AI & ML student on a mission to create AI solutions that genuinely make a difference! Currently diving deep into my BTech studies at SRK Institute in Vijayawada, I'm cultivating strong foundations to build cutting-edge technology.

With a completion of 3-year's diploma in AI & ML and a Intership on a python full-stack at NIPUNA TECHNOLOGY Vijayawada, I've already had hands-on experience developing a full-fledged website.

My tech journey is all about collaboration and continuous learning!

In every project, big or small, I blend creativity with analytical thinking to ensure innovation meets real-world needs. Excited about the future of AI and committed to staying at the forefront! Let's connect! #AI
